📍 Ghaziabad, U.P., India | ✉ rauniyarakash144@gmail.com | ☎ +91-9335528946 | 🔗 [LinkedIn](#) | 🐙 [GitHub](#)

SUMMARY

Final-year B.Tech student with a strong foundation in Java, Data Structures and Algorithms, and Object-Oriented Programming. Familiar with full-stack development using React and Spring Boot, with hands-on experience building projects such as ECO-BAZAAR-X. Interested in software development, problem-solving, and scalable system design, with a continuous learning mindset and focus on improving technical proficiency.

EDUCATION

ABES Engineering College, Ghaziabad Nov 2023 – Mar 2027
B.Tech in Computer Science Engineering(DS) | CGPA: 8.34 (till 5th semester)

RIC Bali Nichlaul Mar 2022 – Apr 2023
Class XII | Percentage: 82.2%

Little Flower School, Maharajganj Mar 2020 – Apr 2021
Class X | Percentage: 81.17%

EXPERIENCE

Web Development Intern (Virtual) [🔗](#), IBM Mooc – IBM Skills Network 6 Sep 2025 – 7 Nov 2025

- Developed RESTful APIs using Spring Boot for team project ECO-BAZAAR-X.
- Implemented CRUD operations with HTTP methods (GET, POST, PUT, DELETE) for client-server communication.
- Managed data persistence using MySQL with JPA/Hibernate.
- Tested and debugged APIs using Postman; collaborated with frontend for seamless integration.

PROJECTS

Perfume E-Commerce Website [🔗](#)
Technologies: React.js, Spring Boot, MySQL, Spring Security, JWT

- Developed a full-stack perfume e-commerce platform with secure JWT-based authentication and role-based access control for users and administrators.
- Built RESTful APIs using Spring Boot for product management, shopping cart operations, order processing, and user account management.
- Designed a responsive frontend featuring product search, filtering, cart management, and checkout experience.
- Integrated MySQL with Spring Data JPA for efficient storage and retrieval of user, product, inventory, and order data.

Real-Time Chat Application [🔗](#)
Technologies: React.js, Spring Boot, WebSocket

- Developed a real-time chat system enabling instant bidirectional communication using WebSockets.
- Built React-based frontend integrated with Spring Boot backend for efficient message handling and delivery.
- Ensured low-latency communication and consistent message synchronization across multiple users.

TECHNICAL SKILLS

Languages:	Java(OOPs), Javascript(basic), Python.
Frontend:	HTML, CSS, ThymeLeaf, React.js
Backend:	Spring Boot, Spring MVC.
Database & ORM:	MySQL, Hibernate, Spring Data JPA
Tools:	Git, GitHub, GitHub Actions (CI), Postman, IntelliJ IDEA, VS Code

ACHIEVEMENTS & CERTIFICATIONS

- Solved 300+ DSA problems on LeetCode and 500+ DSA problems on CodeChef (2 rating on CodeChef).
- Database Management Systems (DBMS) – Infosys Springboard.
- Udemy Certified Spring Boot Developer: Trained in Spring ecosystem and microservices fundamentals.
- TCS iON Soft Skills Certification: Completed training in communication, workplace, and professional skills.
- Smart India Hackathon (SIH) 2025 – College Level Selection: Represented ABES Engineering College.
- JPMorgan Chase & Co. – Software Engineering Job Simulation (Forage): Gained experience in real-world.
- Member – Data Verse Club (Dec 2023 – Jan 2025): Participated in technical sessions and activities.
